AMPHIBIOUS • ALL SEASON • ALL TERRAIN • SIX PASSENGERS

EXTREME TERRAIN VEHICLE SOLUTIONS

2015 Commercial Vehicles
The Most Versatile Off-Road Vehicles in the World

Designed for reliability in the toughest terrain conditions imaginable, ARGO vehicles will quickly become a valuable asset at any off-road work site. Water, deep mud, snow and ice are no obstacles for the ARGO and with its short wheel base, high ground clearance and small overhangs, the ARGO is able to achieve exceptional approach, breakover and departure angles making hills and uneven terrain a joy to ride. What ever the task, ARGO vehicles overcome the challenges with proven durability and performance, adaptable platforms and numerous optional accessories.

NEW ARGO 8x8 Frontier EFI outperforms on mixed terrain and elevations, with greater fuel efficiency and reliable cold weather starting.

NEW ARGO 8x8 trailer for hauling material or transporting equipment up to 1,400 lb. (635 kg).

NEW tracks featuring heavy duty UHMW-PE guides, reinforced rims and high impact resistant turf tires.

NEW Fire fighting platform: 75 gallon tank, 5 gallon foam cell, 6 hp Honda engine, fire pump, booster hose and forestry nozzle.

NEW Universal Mounting System for quick connect installation of power packs, tanks and other industrial equipment.

New ARGO Roof for protection against the elements providing operator comfort. (mounts onto ARGO ROPS)

Optional Extras: Chain lubrication system to reduce maintenance. High torque transmission for better performance in extreme terrains.
When performance and time are crucial factors in the success of your remote site operations... ARGO is the best way to go!

Fully Amphibious without Vehicle Preparation
ARGO vehicles are capable of floating on water allowing transport for up to 4 passengers or a total load capacity of 1,000 lb. (454 kg).* The specially designed tires propel the ARGO at a speed of 3 mph (5 kph). *The ARGO 8x8 CENTAUR will traverse flooded areas, shallow rivers and streams with a fording depth of 26" (660 mm).

Stability
The lightweight design provides safe operation in challenging terrain and allows 9" (225 mm) of ground clearance at the center of the vehicle. The specified load capacity of ARGO models is maintained in most off-road applications while the load capacity of UTV and other vehicles often is considerably reduced to allow for safe operation in challenging terrain.

Driver Operation and Control
Most ARGO models feature the technologically advanced, direct drive triple differential ADMIRAL steering transmission, feeding even torque to all 8 of the big 25" (635 mm) ARGO tires. Operating in high range, these superior extreme terrain vehicles steer smoothly through challenging terrain. In low range, the ARGO can turn within its own length with minimal effort, allowing for extremely tight turns.** The ARGO has excellent approach and departure angles to easily overcome obstacles. **Applies to tires-only application.

Safety
The low center of gravity and all-wheel drive provide sure-footed traction and maneuverability through demanding weather and terrain conditions. ARGO models are equipped with a standard emergency/parking brake and a skid plate for lower body protection is available as a standard or optional feature.
ARGO models can be equipped with an optional rollover protective structure (ROPS) with integral driver / passenger seat belts and optional windshield.

Proven Track Record
ARGO vehicles are manufactured by ODG in New Hamburg, Ontario, Canada at ODG’s 121,500 sq.ft. (11,350m²) facility. Since 1962, ODG has been an innovative manufacturer of gears and transmissions, amphibious extreme terrain vehicles, and rovers for future lunar exploration. ODG introduced the world famous amphibious ARGO in 1967 and has sold more than 50,000 vehicles around the globe. Our dedicated team of engineers, production and technical support staff has made ARGO the most reliable, amphibious, off-road, utility vehicle you will ever drive.

Solid Investment
The all season capabilities of ARGO models provide optimized utilization resulting in fast, year-round payback on investment. Proper operation and adherence to a scheduled maintenance program will ensure maximum uptime and usage for years to come.

Safety!
Seat belts must be worn by all occupants if a ROPS is installed however, they must be unfastened before water entry. For safety, we recommend wearing approved helmets and eye protection. When operating in water, always wear approved Personal Floatation Devices. Always remain seated while in the ARGO.

ARGO vehicles go from land to water without vehicle preparation!
ARGO vehicles provides safe transport across all types of terrain.
Hydraulic power pack and breaker courtesy of Chicago Pneumatic
Work crews can perform tasks in isolated, off-road locations.
Your ARGO can be accessorized for winter maintenance.
Utilities, Oil & Gas and Mining

Crews and equipment have to travel miles through challenging terrain to inspect power lines or prospect new drilling sites. Helicopters or expensive tracked vehicles may be able to get the job done, but at what cost? Today's cost conscious industry leaders rely on ARGO vehicles to get the job done in extreme terrain conditions. ARGO vehicles can transport people, equipment and supplies or pull cables and utility poles to remote work sites.

When Every Second Counts, Count On ARGO Vehicles

Many wilderness emergency tasks require the extra advantage that only the ARGO can provide. ARGO vehicles can be installed with spraying equipment and traverse the roughest terrain to extinguish isolated brush fires. Equip the ARGO with insect control devices and you now have a vehicle that will access remote regions and target specific problem areas. These reliable, extreme terrain vehicles are unmatched by any in the industry.

The all terrain ARGO 8x8 transports personnel and equipment to remote accident sites and can evacuate the injured.

ARGO vehicles can be adapted to carry and deploy a variety of custom-fitted abatement solutions.

The all season ARGO can be outfitted with customized equipment for firefighting.
Increase Your Productivity

Resort Lodges, Outfitters and Ecotourism
The multi-passenger ARGO is the perfect vehicle for wilderness exploration, scenic tours, photo safaris and everything in-between.

- Ecotour Operators
- Outfitters & Adventure Tours
- Trail Grooming and Maintenance
- Transporting People and Supplies

Agriculture and Woodlot Management
Spring thaws, heavy rains, flooded areas and dense bush can make your work extremely challenging. With the ARGO you can operate in any season and any terrain!

- Spraying, Seeding and Feeding
- Tapping Maple Trees
- Pulling Logs and Hauling Trailers
- Plowing Snow

Military and Humanitarian Applications

ARGO vehicles are air deliverable, can be used in all seasons and are developed to accommodate all terrain conditions. Their rapid deployment capability, together with the modular flexibility of the system facilitates many tasks and applications.

- Rapid Manpower Mobility
- Supply and Re-Supply of Equipment and Operational Consumables
- Communications Command Modules
- Reconnaissance and Surveillance Modules
- Peacekeeping Force Mobility
- Agility in Accessing Dense Urban Areas
An all terrain utility vehicle featuring a 34 hp (25.3 kW) Briggs & Stratton Daihatsu, turbo diesel, in-line 3 cylinder, 4 cycle, liquid cooled engine and patented CENTAURMATIC transmission. The ARGO CENTAUR features smooth steering with zero turn capability and full time traction to all axles. The low center of gravity and full-time eight-wheel drive provide sure-footed traction and maneuverability through demanding terrain and weather conditions.

The ARGO CENTAUR has an Integral Rollover Protective Structure (ROPS) and is designed to go through flooded areas or across shallow rivers and streams with a fording depth of 26" (660 mm).

For complete information on the ARGO 8x8 CENTAUR visit our Web site at www.ARGOutv.com/products/centaur.

These 8-wheel drive amphibious off-road vehicles feature Kohler diesel or EFI engines plus ODG patented, triple differential, ADMIRAL transmissions. The main chassis has been engineered using field-proven technology, allowing for increased payloads and greater durability.

For complete information on the ARGO 8x8 XT Models visit our Web site at www.argoutv.com/catalog/XT-models.

For all vehicle configurations, rubber tracks are available for better traction in soft terrain or snow.
Overview

The ultimate machine for those who don’t like compromise solutions! This ARGO has it all – a powerful yet quiet, liquid cooled, fuel injected engine, efficient ADMIRAL steering transmission and large 25” (635 mm) wheels combine to give this machine great top speed handling and best-in-class extreme terrain capability while carrying its full payload. It is equally well-suited for hard work and hard play.

Features

• Innovative triple-differential ADMIRAL transmission with independent steering brakes
• Optional high torque transmission for extreme terrain performance
• Increased steering efficiency for more and constant power to the wheels
• Electronic Fuel Injection provides:
  - Increased fuel efficiency
  - Reliable cold weather starting
  - Improved high altitude performance
  - On-board diagnostics
• Large rear cargo capacity
• Long wheel base for increased ride comfort over rough terrain
• Large triple-sealed outer axle bearings
• Front and rear bearing extensions
• 8-wheel traction with low centre of gravity for extra stability
• Electronic ignition
• Self-adjusting hydraulic brakes with vented discs
• Low emissions

This Special Edition 8-wheel drive amphibious off-road vehicle is powered by a 4-stroke OHV V-Twin liquid cooled 748cc, 30 hp (22 kW) Kohler Aegis LH775 engine with electronic fuel injection. It has a load capacity of up to 1,000 lb. (454 kg) on land or 850 lb. (386 kg) on water, can transport 6 passengers on land, 4 on water and features a towing capacity of 1,800 lb. (816 kg).

Overview

This top-of-the-line extreme terrain vehicle features a powerful yet quiet, liquid cooled, fuel injected engine, efficient ADMIRAL steering transmission and large 25” ARGO wheels. This exciting machine easily navigates in thick mud, flooded areas or water while carrying or hauling all the equipment and gear you need.

Special Features

• 3-way adjustable suspension seating with rear grab handles
• High / low beam headlights
• Front-mounted horn
• 7-pin electrical trailer connection
• Entry step
• Signal / side marker lamps
• Side view mirror
• Heavy duty alternator
• Optional seat belts

NEW

*This vehicle is also available as ARGO 8x8 750 HDi EU or 700 HD EU featuring road approval in Europe. Comes with a front hitch mount.

For all vehicle configurations, rubber tracks are available for better traction in soft terrain or snow.

Appearance and specifications subject to change without notice. Vehicles shown with optional accessories. See specification page and ARGOutv.com for more details.
This 8-wheel drive amphibious off-road vehicle is powered by a 4-stroke OHV V-Twin liquid cooled 748cc, 30 hp (22 kW) Kohler Aegis LH 775 engine with electronic fuel injection. It has a load capacity of up to 1,150 lb. (522 kg) on land or 1,000 lb. (454 kg) on water, can transport 6 passengers on land, 4 on water and features a towing capacity of 1,800 lb. (816 kg).

Overview
Great multipurpose vehicle for hunting, personal utility use and commercial applications. The large 25” (635 mm) wheels will take a full load over rocks and stumps with ease while providing extra stability and floatation in water. The powerful 30 hp (22 kW) liquid cooled engine will pull even the heaviest game out of the bush, or carry equipment and gear. The engine starts at the turn of the key, even on the coldest morning, thanks to the electronic fuel injection.

Features
• Electronic Fuel Injection provides:
  - Better fuel economy
  - Reliable cold weather starting
  - Improved high altitude performance
  - On-board diagnostics
• Large rear cargo capacity
• Long wheel base for better ride comfort over rough terrain
• Large triple-sealed outer axle bearings
• Front and rear bearing extensions
• 8-wheel traction with low centre of gravity for extra stability
• Proven, state-of-the-art automatic continuously variable transmission with high and low range forward and reverse
• Optional high torque transmission for extreme terrain performance
• Electronic ignition
• Self-adjusting hydraulic brakes with vented discs
• Low emissions

ARGO Limited Warranty

For all vehicle configurations, rubber tracks are available for better traction in soft terrain or snow.
ARGO 8x8 Frontier EFI

This 8-wheel drive amphibious off-road vehicle is powered by a 4-stroke OHV V-Twin air cooled 747cc, 23 hp (17 kW) Kohler Command Pro engine with electronic fuel injection. It has a load capacity of up to 1,000 lb. (454 kg) on land or 900 lb. (408 kg) on water, can transport 6 passengers on land, 4 on water and features a towing capacity of 1,400 lb. (635 kg).

Overview
The most affordable ARGO 8x8 vehicle features great performance in difficult terrain and has excellent water crossing capabilities. Great load carrying capacity and powerful towing capabilities at an attractive price.

Features
- Electronic Fuel Injection provides:
  - Better fuel economy
  - Reliable cold weather starting
  - Improved high altitude performance
  - On-board diagnostics
- Large rear cargo capacity
- Long wheel base for smooth ride comfort over rough terrain
- Large triple-sealed outer axle bearings
- Front bearing extensions
- 8-wheel traction with low centre of gravity for extra stability
- Electronic ignition
- Proven, state-of-the-art automatic continuously variable transmission with high and low range forward and reverse
- Self-adjusting hydraulic brakes with vented discs
- Low emissions

ARGO 6x6 750 HDi

This 6-wheel drive amphibious off-road vehicle is powered by a 4-stroke OHV V-Twin air cooled 747cc, 23 hp (17.2 kW) Kohler Command Pro engine. It has a load capacity of up to 700 lb. (318 kg) on land or 500 lb. (227 kg) on water, can transport 4 passengers on land, 2 on water and features a towing capacity of 1,400 lb. (635 kg). Rear seat weight restriction of 140 lb. (64 kg) applies.

Overview
The most affordable ARGO 6x6 vehicle features great performance in difficult terrain and has excellent water crossing capabilities. Great load carrying capacity and powerful towing capabilities at an attractive price.

Features
- Electronic Fuel Injection provides:
  - Better fuel economy
  - Reliable cold weather starting
  - Improved high altitude performance
  - On-board diagnostics
- Large rear cargo capacity
- Long wheel base for smooth ride comfort over rough terrain
- Large triple-sealed outer axle bearings
- Front bearing extensions
- 8-wheel traction with low centre of gravity for extra stability
- Electronic ignition
- Proven, state-of-the-art automatic continuously variable transmission with high and low range forward and reverse
- Self-adjusting hydraulic brakes with vented discs
- Low emissions

For all vehicle configurations, rubber tracks are available for better traction in soft terrain or snow.

Appearance and specifications subject to change without notice. Vehicles shown with optional accessories. See specification page and ARGOtv.com for more details.
Tracks add greater maneuverability in difficult and varied terrain. www.argoutv.com/catalog/tracks

Maximize the utilization of your ARGO with a snow plow and trailer. For greater speed on water add an outboard bracket and up to 9.9 hp motor. A bedliner will protect your ARGO and facilitate transportation of equipment and tools. An ARGO equipped with search and rescue apparatus can reach and evacuate injured in remote terrain.

* Factory Installed Option. **Requires 25” Tires. ***Requires Front Bearing Extensions. ****Standard and Super Tracks require the use of ARGO AT189 24x10.00-8NHS Tires. *****Requires Stretchr Mount Adapter (850-100)
Converter Mounts to assemble and fit to your ARGO. Complete with everything needed for increased ride comfort.

Conversion Kit

Provides convenient and safe storage. Absorbs the shock of rough terrain and keeps your sights accurate.

Gun Rack (Sure Grip)

Tubular steel rails mount around the body, providing hand-hold points for rear passengers.

Handrails

Easy to install. Allows winch cables or towing straps to be attached to your ARGO.

Tow Hook

CONVENIENCE

Auto Chain Lubrication System

(Not shown) Increases chain life and reduces maintenance requirements. Available in one hour (standard) or fifteen minute (heavy duty) intervals.

Cargo Tie-Down Rings

(Not shown) Six rings mount around the rear compartment (four rings for 6x6 models).

Entry Step

Convenient and easy access to the vehicle. Can be mounted in four different positions.

Gas Can Holder

Adjustable gas can holder mounted at the rear of the vehicle.

Windshield

Scratch-resistant acrylic in an aluminum frame, featuring mounting hole for the optional windshield wiper accessory.

Windshield Wiper

Complete with everything needed to assemble and fit to your ARGO windshield. The wiper motor mounts quickly and easily, requiring no drilling on newer style predrilled windshields.

CONVENIENCE

Auto Chain Lubrication System

(Not shown) Increases chain life and reduces maintenance requirements. Available in one hour (standard) or fifteen minute (heavy duty) intervals.

Cargo Tie-Down Rings

(Not shown) Six rings mount around the rear compartment (four rings for 6x6 models).

Entry Step

Convenient and easy access to the vehicle. Can be mounted in four different positions.

Gas Can Holder

Adjustable gas can holder mounted at the rear of the vehicle.

Windshield

Protects occupants from the weather. Has removable side and rear doors and stores folded down with boot cover. Requires fold-down windshield. (Optional roll bar light cannot be used with full convertible top).

Convertible Half-Top

Protects operator and side passenger from the elements. Features removable side and rear doors, allowing easy access to the rear cargo compartment area. Requires fold-down windshield.

Convertible Top

Protects driver and passenger. Factory installed option. 3-way adjustable suspension seats for both driver and passenger. 3-way adjustable height and weight suspension seat for both driver and passenger.

SUSPENSION SEAT

958-69 • SUSPENSION SEAT

WARNING: Battery Shut-Off (Not shown) Positive battery cable interrupt located under the driver seat. Disconnects battery to prevent accidental battery drain.

Bedliner

(Photos on page 10) Protect your cargo storage space. Simple installation, removable and easy to clean.

Roll Bar

Protects driver and passenger. Comes with two seat belts and fits all 6x6 models. (Reduces seating capacity to 2).

UTILITY RACK

Two “rugged gear” utility hooks and barrel holder. Safely secures objects such as shovels, fishing rods, paddles, etc. to the outside or inside of your ARGO.

Utility Bracket

Two formed flathand brackets, four “rugged gear” utility hooks, and mounting hardware. Allows two rifles or shotguns to be carried on the inside of your ARGO.

Wireless Winch Remote Control

Wireless and compact, this unit can control remote use of winch from a location of up to 50’ (15.24 m) for added convenience and versatility.

Snowplow Kit

81” (2 m) wide steel blade features multi-angle positions. Attaches to front frame extension hoistings. A snowplow will maximize the utilization of your ARGO. Note: Requires power winch.

Battery Shut-Off

(Not shown) Positive battery cable interrupt located under the driver seat. Disconnects battery to prevent accidental battery drain.

Bedliner
